Status: **Verified**

Account Creation Date: **Jun. 15, 2007**

To ensure that this is a legitimate PayPal Verified user, make sure that the URL of this page begins with <https://www.paypal.com/>.

What it Means to be Verified

To become Verified, a PayPal member in Ecuador must enroll in our Expanded Use Program. When a member completes Expanded Use enrollment, he undergoes additional checks that increase security for all PayPal users. Please note that PayPal's verification system does not constitute an endorsement of a member, nor a guarantee of a member's business practices. You should always consider other indicators when evaluating members, including length of PayPal membership and reputation scores (on eBay or other auction sites, if applicable).
